Angular HTML Template Syntax – One■Page Cheat Sheet (Angular 18)

Interpolation: {{ value }}

Property Binding: [disabled]="isDisabled"

Event Binding: (click)="save()"

Two■Way Binding: [(ngModel)]="name"

Structural Directives: *ngIf, *ngFor, *ngSwitch

New Control Flow: @if, @for, @switch

Class & Style Binding: [class.active], [ngStyle]

Pipes: date, currency, async

Safe Navigation: user?.address?.city

Template Reference: #input

Inputs / Outputs: [user], (updated)

Async Pipe: {{ obs$ | async }}

Signals: {{ count() }}

Content Projection:

Interview tip: Prefer @if/@for, async pipe, OnPush change detection, and trackBy for performance.
